

## Module 2: Interview Assignment

Interview 3-4 staff members (an ECS, curriculum administrator, teacher, or another staff member) to find out what models of blended learning are being utilized in your own school building.

\* If you currently aren't working in a school, select educators in your district that you can interview.

**You can use the following questions as a guide:**

- Are you familiar with blended learning and the four models?
- Are these models being implemented in the school or in specific classrooms?
- What does the physical location look like?
- Are the students engaged?

Publish your 3- minute (or less) interview on the discussion board as an audio file, video, or another presentation of your choice. View at least two other classmates projects and create two responses.

### **Interview Presentation: (25 points)**

- Present the findings from your interview in any of the following formats:
  - audio file (.wav)
  - video (.mp4)
  - PowerPoint
  - Prezi
  - Slidrocket
  - *Any web presentation tool*
- Presentations must be shared on the discussion board as a web link. You have to upload videos, PowerPoint presentations, or other projects created on your computer to the web. You can use Google Drive, Vimeo, Youtube, or <http://tv.ccsd.net/> and share the link from one of those sites.
- Presentations cannot be directly uploaded to the discussion board, instead copy and paste the link to the presentation.

### **Two Responses (25 points)**

- View at least two other classmates projects, evaluate and provide feedback.
- The two responses should include an evaluation of whether or not you agree with what the interviewees considered blended learning.
- Consider what factors must be present in order for an educational program to be called blended learning.
- Is there a specific criterion that must be met?
- Does using technology make it blended learning?
- Are there misconceptions about the definition of blended learning?

**Total point value for this assignment is 50 points.**
